- As we know that how ATM machine works so i chose to make a full working program of ATM Machine in C++ for my semester project. It's only a code because it's my 2nd semester project. In future I will make UI of this project and add some additional features. (Code also on github)

- Virtual Assestiant progam is not a semester project. I made it for learn bacis python language. It works on voice command and I implement it in my Pc so its make my life easiler to open files, folders etc. (Code also on github)
